Callans Claim Survey Shows Annex Merits

Builder Tom Callan Jr. declared today that he is "confident that if all the facts are made available to residents, they will see that the City Council was correct in annexing Callan Park to Daly City."

Callan said he felt "citizens weren't informed fully of the Callan Park benefits" as cited in a survey submitted to the city council by the Griffenhagen-Kroeger survey firm, which prepared a report on the scope of the development for the Callans.

The report says 2800 homes, one major shopping center, two neighborhood shopping centers, and 2950 apartment units will be built in Callan Park—amounting to \$129,600,000 in total value of land and improvements. Adding personal property, the additional assessed value added to Daly City's rolls for tax base purposes would be \$37,260,000, the report shows.

The report said these estimates were based on the Callan timetable that the first homes would be started this June and

that the biggest shopping center and major apartment development will be started in September of 1962.

The survey, under "Financial Consequences—Eventual," said the tract would yield revenues to the city amounting to a net gain of \$337,459.

This is ascertained, according to the survey, on the estimate that the city will have to spend \$596,160 to provide services for the tract's estimated 16,560 population, while revenues back from the area would total \$1,036,739.

The Griffenhagen - Kroeger survey concludes:

"The substantial excess of revenue over expense can be applied to improve service, build new public improvements, or reduce taxes—or all three. Applied to the tax reduction alone, it could reduce the property tax rate by as much as 50 cents."

"The point in brief is that this development will be a rich asset to Daly City," the report finalized.

'Too Early' Says City Manager For Estimate On New Tax Rate

City Manager Edward Frank terms it "too early to approximate Daly City's next fiscal year and to determine the extent of services needed in the first stages of the Callan Park annexation."

His statement clarified quoted suggestions in one metropolitan newspaper that Callan Park would play no significant factor in an expected property tax increase here.

Frank said he and the city council "have no way of knowing these answers until all the departmental budget requests are checked out, discussed by him and the finance director with the department heads, and then presented to the council for a series of budget study sessions beginning the latter part of this month."

"With or without Callan Park, it's almost a certainty the tax rate will have to increase," he pointed out. "We have more population and must extend basic fire, police and maintenance services to accommodate this population. Also, I think the council agrees the 90-cents general tax rate last year was too low and we are in the midst of a curtailment program as a consequence."

"As far as Callan Park is concerned," he went on, "the amount of services and their costs for this addition depends entirely on the decision of the council at the time we sit down and discuss the overall budget."

The council has until the first Monday in August, according to law, to set the new tax rate. Final adoption of the new budget is expected by the end of that month.

The guide calls for: 8 percent on all jobs under \$400,000; 7 1/2 percent on all jobs between \$400,000 and \$600,000; 7 percent on all jobs between \$600,000 and \$1 million; 6 1/2 percent on jobs over \$1 million; 6 percent on all jobs that are built with a duplication of plans. Superintendent Richard Foster said remodeling would have to be put in a separate section.

Foster said the schedule would only affect payment at one school, Christopher Columbus. He said that neither the architect nor the board asked for a jump from the 6 1/2 percent category to the 7 percent step for Architect Angus McSweeney but that the administration initiated the movement.

He said this would be in keeping with the above schedule. Mrs. Mullen said she

RUNAWAY BOY TOTING RIFLE

A 16-year-old orphan in a "rebellious state of mind and under psychiatric care" ran away from his uncle's home last Sunday carrying a .22 caliber rifle. As of yesterday police said they had not picked him up.

The Jefferson High School lad is believed to be on his way to Vallejo to reach his sister. The boy took all his clothing with him.

Officer Tom Culley said the boy's "intentions in regard to the weapon are not known." Local police sent a teletype message to Vallejo authorities.

POLIO SHOTS RESERVATIONS MAY BE MADE

Polio project chairman Ray Logan of American Legion Broadmoor Post 824 announced today that anyone wishing to receive the first injection may do so by phoning WY 2-2222 and making reservations for the May 14 date by leaving their name, address and phone number.

Logan said the reservations are necessary as 1500 people are expected to receive the first of three shots on May 14. The second injection is set for June 11. The third shot will follow seven months later. Logan noted that if more than the 1500 people expected call, a second day may be set.

The chairman said there are 14 persons working on the Daly City area project now but more are expected to participate when plans become more concrete and local schools return information slips.

Site of the \$1 per injection polio project will be announced next week.

Daly City's Fiftieth Birthday Celebration Planning Gets Rolling

Plans for a week-long Daly City 50th Birthday Celebration got off to an enthusiastic start Tuesday night at City Hall when 26 citizens voiced the necessity of full community participation.

Former city councilman Arthur Bodien, 28 Rice street, was pleased with the initial response. But he agreed with Mayor Frank Pacelli and City Personnel Board Chairman Mel Battye that all groups in Daly City should be represented in the planning and that several committees and sub-committees could be set up to make the 1961 event worth boasting.

After unanimously voting the celebration chairmanship to Bodien and the vice chairmanship to Battye, the 26 assembled called for another organizational meeting Wednesday night, May 18, at City Hall, 75 Wellington Avenue, 8 o'clock.

Scores of groups which failed to send representatives to this week's meeting and many others which haven't been contacted are urged to attend this session. A 10-member board of directors will be formed at the May 18 meeting and Bodien said he hopes to have a packed house. All interested residents will be given committee assignments, he emphasized.

"Daly City's 50th birthday event," said Bodien, "will give citizens from all walks the opportunity to have a role in the celebration. The success of this activity depends on the support the many groups on both sides of town put behind the project." Pacelli pledged "100 percent city council cooperation in this

4000 SIGNATURES ENLISTED

Referendum Group To File Report Monday

The citizen petitioners seeking a referendum on the Callan Park annexation will file a document bearing between 4000 and 4500 signatures with the city clerk next Monday, May 9—the deadline for challenging the City Council-voted regular annexation ordinance.

Spokesman Fred J. Walker of the petitioners, "all of whom are Daly City residents," today revealed his group would not go before the City Council next Monday night but would file the validated petition earlier in the afternoon.

The signature campaign,

Businessman's Wife, 45, Dead In Suicide Here

Mae Gertrude Willis, 26 Vendome Avenue, was found by her husband and Daly City police dead in bed at her home Tuesday morning at 9:45, victim of a self-inflicted .22 caliber bullet.

The woman's husband, Harry, who operates the cleaning establishment at 6287 Mission street, said he could think of no reason for her act. There was no suicide note.

Willis discovered his wife's body about 9:30 Tuesday morning and immediately went to police headquarters. Asst. Police Chief Roy McLaren, Officer Art Linhares and Sgt. Jack Walsh accompanied Willis to the Vendome residence and found Mrs. Willis in the rear bedroom, clutching a small automatic Ruger pistol in her right hand. Police recovered the bullet which entered through her right temple and went out the other side of her head.

McLaren said the gun was registered to Mrs. Willis, 45, about eight years ago when she applied for a permit to own the weapon.

The police report noted that she and her husband, 49, who resides in Pacifica, had been living apart for some time.

Willis said he last saw his wife alive about 4 o'clock Monday afternoon.

Deputy Coroner Joe McPheeter ordered the body removed to Community Hospital for an autopsy. McLaren said time of death was estimated at 11 p.m. Monday.

cause for the council to also adopt an emergency ordinance. While Walker declared that of the more than 3000 validated signatures already taken, "95 percent of these people are against the annexation because of its higher tax implications," Daly City officials and Callan Builders feel that if the council "delegates" the annexation decision to a referendum verdict, the facts showing the merits of the annexation to Daly City should convince residents that the annexation is beneficial to the city in the long run.

Callan's report to the council on the overall development includes the declaration that the city's costs will be counterbalanced by heavy revenue to the extent that the city's property tax rate three or four years hence will be able to drop as much as 50 cents.

The alternatives facing the council in the path of the petition drive are either to repeal the regular ordinance or suspend it indefinitely. The emergency ordinance is a

Final Session June 15

SOUTH CITY GRANTED HEARING TO CHALLENGE SERRA ROUTING

The State Highway Commission last Thursday in Sacramento adopted routings for portions of the north San Mateo County freeway network and set a June 15 public hearing in South San Francisco that will be tantamount to final adoption of the Junipero Serra freeway from Alemany and Knowles in Daly City to San Bruno Avenue.

The city of South San Francisco requested the Commission to hold a public hearing on the proposed routing for the Junipero Serra freeway. Daly City, Pacifica, San Bruno and Colma officials are satisfied with the proposed Junipero Serra routing, but South San Francisco will make a desperate effort to swing the Serra route west to Skyline boulevard. If South SF's presentation on June 15 fails to convince the State Commission, a verdict on the Serra route preferred by Daly City should be forthcoming without additional delay.

Mayor Frank Pacelli of Daly City asserted Monday that "we will again strongly reiterate Daly City's position in favor of State Route 2 with modifications on Junipero Serra because it is the least disruptive to our community—and Daly City will not waver from its original position."

Hospital Committee 'Enthused'

Dr. Sanford Marcus, Westlake resident and North San Mateo County District Hospital Committee member, said today the committee is "pleased and enthusiastic" over Mary's Help Hospital's contemplated move to this area.

Dr. Marcus noted that district committee members will meet with Sister Mary Rose, chief administrator for the hospital staff, next Tuesday. He said no time or place has been set yet but chairman Leo J. Ryan is presently making arrangements.

Asked if the committee would be disbanded as Mary's Help plans become more concrete, Dr. Marcus answered, "No... our studies have shown that within 10 years the one facility would not be able to handle the population anticipated in this area. In addition, we will work along with the Mary's Help administrative staff as we have some valuable studies on this area."

One of the initial phases which the committee will discuss with Sister Mary Rose is the location of the hospital. Dr. Marcus said the hospital will fill a much-felt need and easily accessible location is very important.

Dr. Marcus said, "Our committee was formed in order to explore ways and means of securing a hospital in this area. We had to start through the district type hospital plan. Mary's Help points the way. Our main concern is with a hospital for this area, not specifically how it comes about."

The doctor said plans for Mary's Help call for 150 beds, with provisions for expanding to 250 beds in the future.

County officials and San Bruno councilmen agree with Daly City that the modified Route 2, involving an east-west lateral from Junipero Serra to Skyline and the Edgemar freeway interchange, is the best routing.

South San Francisco, which covets the undeveloped Christen lands bordering west of Winston Manor subdivision for annexation, will again insist that the freeway be swung from a point near the Chinese Cemetery road across the Christen and Callan Park undeveloped acreages and connect to Skyline near the old Sharp Park road—where the first unit of Callan Park would be built.

Pacelli said this re-routing, in effect, would be detrimental because it would ruin Daly City's Callan Park development and "leave Daly City holding the bag of two east-west laterals off Junipero Serra—a decidedly undesirable position."

After a long conference early this week with J. P. Sinclair, assistant state high engineer in San Francisco, Pacelli said the routes adopted by the Highway commission last week were the east-west lateral from Junipero Serra through the south tip of St. Francis Heights (south of Clarinada drive) and connecting to Skyline and the Edgemar freeway; the Skyline link from Edgemar freeway south to Crystal Springs road, San Bruno, and the short link from San Francisco's southern Freeway terminus, on Orizaba Avenue, to Alemany and Knowles in Daly City. These portions and the north-south Junipero Serra freeway routing through Daly City were recommended by Sinclair's office in April following two public hearings at which all affected north county officials and groups testified and commented on the state route proposals. The first public hearing was on January 28, 1959, and the second, conclusive session was conducted January 13, 1960, both in South San Francisco.

\$451,200 Bid On New Classrooms Approved Here

Elementary District trustees Monday night accepted the \$451,200 bid of Louis C. Dunn for 21 classroom additions at three new schools in the district, subject to the approval of the state department of finance.

The base bid was \$409,400 for seven classrooms at Abraham Lincoln, Thomas Edison and Daniel Webster. The total bid included \$7400 for service site development and \$34,400 for general site development.

Work on the classrooms is to start in 180 days with the first of January being the deadline date. Other bidders were Hertero Brothers, Martinelli Construction, Pacific Coast Builders and Peter Sartorio.

'This Is No Place For Me' Man Accused Of Shoplifting Reasons

Arthur L. Sossio, 29, 618 Cordova street, San Francisco, owner of Sossio's Macaroni Products, 1462 San Bruno avenue, told Officer Tom Culley, "I have never treated a customer of mine like I was treated."

Charles Dougherty, owner of Pacific Super Market, 6212 Mission street, didn't say as much but obviously would have retorted that Sossio wasn't a "customer."

Sossio was citizen arrested on a charge of shoplifting by Dougherty and clerk Sheldon Lewright last Thursday at 5:15 p.m. He was released on \$263 bail and is to appear in South San Francisco Municipal Court next Thursday at 9:30 a.m.

Sossio's story contained the following: I was placing articles in a shopping basket when two men came up to me and started pulling and pushing me around. Then a third man came up to me brandishing a club. "Then I told myself, this is no place for me." One of the men hit me with a club, made of wood. Why would I want to shoplift when I had \$104 on me?

The man denied taking anything and alleged he was attacked in the store. He said he ran out due to panic and not guilt. Culley said Sossio could file a complaint if he so wished.

Dougherty's story contained the following: I saw Sossio place many pairs of nylon stockings in his cart and thought this was quite unusual. I asked store manager Ed Binkley to keep an eye on him. Binkley said he spotted Sossio putting a number of items underneath the back of his shirt.

I asked him if he had forgotten to pay for anything and

he ran out of the store. I picked up a wooden club, but did not use it. No force of any kind was used. Myself and Lewright caught up with Sossio after a chase of several blocks. We took off his jacket and ripped his shirt open in back. A number of pairs of nylon stockings fell out.

Held in evidence by police were the stockings, 13 pairs, plus other objects found at the store and the wooden club. The other items included Astounding Science magazine, three pair of pants, one pair of shorts, one TV guide magazine and four men's tee shirts. Total value was \$20.64.

Dougherty and Lewright marched Sossio to the police station after enlisting the aid of a passing motorist.

Both Dougherty and Lewright signed citizen's arrest forms.

\$100 Fine For Man Who Passed Checks

Gene Montalbano, 26, 362 Mt. Vernon avenue, San Francisco, pled guilty on two counts of passing fictitious checks in Municipal Court last week and was fined \$100, placed on six months probation, and told that restitution would have to be made.

Sergeant Charles Terry picked Montalbano up last Wednesday. Three Daly City traffic warrants were also added to the charges.

Montalbano admitted passing a \$20 check at Dubin's Men's Shop, 6274 Mission street, on May 5, 1959, and a \$25 check at Port's Department Store, 6340 Mission street, in February of this year.

thought at the time McSweeney was hired for this project he was chosen because "among other things" he asked a low rate for his services. Verducci said this was true but McSweeney's fee was only one of the considerations.

A member of the audience, Mrs. Helen Morton, 322 Glenwood avenue, said she did not see why the administration wished to pay the architect more money without his asking for it. "Maybe the architect doesn't even want more money," she commented.

Foster said, "There is no bargain in life—you get what you pay for. I have two thoughts on the matter. One is that we ask the architect for the highest professional standards and the other is if the administration is justified in bringing an additional expenditure before the board."

Tuesday morning Foster added, "We have twice requested a change in engineering services at the Columbus School. The additional 1 1/2 per cent would be a total of \$4000 to McSweeney."

The board tabled this part of the motion, calling for the additional expenditure, to the meeting of May 16. McSweeney is working on eight schools, a teachers' room, the central administration headquarters and four additions to schools within the elementary district.

Fire Emergency? Continue To Call PL 5-4212 Please!

Daly City Fire Chief Elmer Kennedy said the newspaper was correct last week in publicizing the new phone number of Central Fire Station in Westlake as WY 2-1144, but he explained that fire emergency calls are still being routed through PLaza 5-4212, police headquarters switchboard.

Kennedy pointed out that while the Wyman prefix is Central Station's new number, emergency calls should be made to PL 5-4212.

Central Fire Station's address has been redesignated from 50 Lake Merced boulevard to 151 Lake Merced boulevard. The station itself, however, has not been moved.

Special JESD Meet For Bid Approvals

Superintendent Richard Foster Monday told elementary trustees that a number of bids would be opened between May 12 and 20.

The schedule includes: May 12, opening of bids for Ben Franklin playground; May 13, opening of bids for George Washington School, sale of the Jefferson annex and letting of the audio visual contract for the district; May 20, opening of bids for Colma K-6 teachers' room and the new bids on the Education Center.

The May 12 and 13 bids will be acted upon at the regular May 16 meeting while a special meeting may be held on May 24 for the trustees' decision on the May 20 bids.

festivity, and I agree that it will bring a closer understanding among different sections and help to unite Daly City."

Bodien, who spent five months last year working with the planning staff of the San Mateo County Fair, said the best time for the week-long observances would be "in May when the weather is good."

He suggested use of War Memorial building for exhibits on Daly City through the years, a queen contest, a grand ball, a parade, and widespread local and even national publicity.

Peter Markovitch, secretary-manager of the Chamber of Commerce, added that golf and bowling tournaments as well as open house events at Daly City's public and parochial schools could be made a part of the festivities.

Parkes Harris, First Western bank manager from Westlake, suggested that a permanent council for promoting Daly City be considered to help sustain community-wide events and programs.

Ray Logan of the Chamber suggested a professional organizer be retained to head the planning.

Tavern proprietor George first meeting turnout wasn't too good, asked the others to "bring a friend along" at the next committee meeting.

A speakers' committee to address and enlist the backing of all the social, civic, fraternal, service and PTA groups was proposed by Battie.

Bodien declared that the fifth birthday event would "give Daly City residents pride in the community and also would be good for business."

"We'll need quite a sum of money to make this project a good one, and real cooperation of businessmen and merchants," he stressed.

Editor Harold Bradshaw of Marchbanks Publications said the Westlake Times, The Record and Shopping News would "cooperate fully in this promotional event" and encourages residents with ideas for the celebration to write to the Daly City newspapers. These suggestions will be routed to the planning committee.

Besides those mentioned above, others attending Tuesday's meeting were: President Louis Pisano of Chamber of Commerce; Postmaster Vincent Murphy; City Band Director George Brenner; Police Lt. Bruno Concl; President Las Basceto of the Police Athletic League; auto dealer William J. Sweeney; Elementary Schools' Trustee Tom Noonan; St. Francis Heights; DC Scavenger Company President Al Sereni; High School Trustee Ann Eason; Women's Civic Club; Folk Dancing Director Elsie Maclaren; Lanty George Molloy, owner of classic old-time boxing photos of Daly City; Colma events; Jacqueline Hulme, Christine Hulme and Stella O'Connor, El Carmelo Parlor 181; Native Daughters of the Golden West; Committee Secretary Veronica Wight, Mr. and Mrs. LeRoy Albert, 3 Royce Way, and Roy Hurlbert, Marchbanks newspapers.

1999 Junipero Serra PL 5-1000

FREEWAY

(Continued from Page 1)

Malcolm Wallace, chief design engineer for the San Francisco State Highway office, today estimated that actual construction of the interstate route on Junipero Serra through Daly City "probably won't get underway for at least three years."

He added that 90 percent of this financing will come from federal funds, the rest from the state. Wallace said the east-west lateral through Daly City, which hinges entirely on state funds, won't be constructed until after the north-south Junipero Serra route is operational. According to Wallace, the state currently has \$5 million in funds to commence right-of-way purchases along Junipero Serra.

In recommending the state routes in April, State Highway Engineer J. C. Womack said they were component parts of a proposed freeway network, totaling 14.2 miles in length and estimated to cost a total of \$49,300,000, including the rights-of-way.

By state plans, the Junipero Serra route through Daly City off the SF Southern freeway, would be six lanes (three north-bound lanes and three south-bound lanes) with provisions for eventually adding two lanes—one more in each direction. Additionally, according to the latest announced plans from Sinclair's office, Junipero Serra boulevard in Daly City as it now exists—three lanes each way—will be completely relocated and modified—reducing it to four lanes—two in each direction. How this will affect property owners in Daly City throughout the length of Junipero Serra on both sides of the boulevard has not been specifically defined by the state.

The east-west lateral route through Daly City (south of St. Francis Heights) is geared for six lanes (three each way), separated by a parkway for beautification and safety.

A map received last week by Daly City Engineer Bill Chapman from Sinclair's office showed provisions for major interchanges at Knowles and Alemany on Junipero Serra, (also site of an intended rapid transit station) and at Eastmore avenue-Junipero Serra where the lateral would begin its swing south of St. Francis Heights. Modified Junipero Serra and its freeway will also have crossovers at 87th-School streets and at Washington street in Colma. Exact specifications for these four major points have not been fully defined by the state as Wallace termed final plans "still being drafted."

Education Bldg. Bids Rejected -- Too High

Jefferson Elementary District trustees Monday night threw out all bids for the proposed education center in Westlake as the lowest bidder was \$11,000 over the state allowable maximum.

Superintendent Richard Foster was instructed to work with architect Angus McSweeney to take a minimum number of articles out of the structure without changing its basic structure. Foster said bids will be re-opened on May 20 and the trustees will probably take action on them May 24.

L. C. Dunn Inc. had the lowest bid of \$246,783 during the April 26 opening. Other bidders were Joseph Bettancourt, Denard and Collins, McBroom and Cecchini, and Peter Sartorio. Highest bid was \$260,100.

Foster said the 13,000 square foot unit would not cost the district any additional monies due to the bids being thrown out, excepting the advertising fee. To be located on the northeast corner of the Abraham Lincoln-Thomas Edison site at Lincoln and Lakeshire drives, construction on the central administration unit will begin on June 15 with a completion date of January 1.

Robert Stables responded to the call from Robin's wife, Irene. They found the man in a prone position, face down, in the bedroom. The remains were removed to Lasswell's Mortuary.

Ex-DC Woman Arrested After Moving Articles

Mrs. Encarnacion Beliesio, 53, 853 Capp street, San Francisco, a restaurant owner, was arrested on a Northern Judicial District Court warrant charging theft last Wednesday.

The case dates back to March 17 when A. Barker, 30, of San Jose, said he recently bought a house at 325 Santa Barbara avenue and some of the articles he had stored there were removed.

Mrs. Beliesio was occupying the house at the time. When she moved out the following items were allegedly missing: a table saw, electronic oscilloscope, auto signal tracer, signal generator, carpenter tools and an electric motor. Barker said the machinery was worth \$480.

Mrs. Beliesio said she knew nothing about the matter as her son, Rudy, a teen-ager, did the moving. Sergeant Charles Terry and Officer George Brooks questioned the woman's daughter, Mrs. Barbara Beliesio, 322 Utah street, San Francisco. Her daughter said, "You're welcome to search the place but you won't find anything."

Police found the missing articles there. The elder Mrs. Beliesio was released on \$525 bail and is to appear in Municipal Court this Thursday. Her son will be served with a warrant when he returns from Colorado. Brooks said the woman is responsible in any case as she was the head of the household. Officers Charles Munday and Robert Stables handled the preliminary investigation.

DC Man Charged With Bigamy

Manuel R. Fanara, 22, 172 San Diego avenue, a truck driver, was picked up on a San Francisco warrant charging him with bigamy; by Officer Jim Bergstrom last Wednesday evening.

Fanara, who lives with his wife Dorothy here, told Bergstrom his first marriage had been annulled. He said his former wife had served him with a warrant once before and it had been thrown out of court.

He was released on \$1050 bail and is to appear this Friday at San Francisco Municipal Court.

Daly City Woman Turns Child Over To Welfare Dept.

A Daly City woman who has been caring for a San Francisco woman's child since January, last week told local police she could no longer take care of the baby. The one-year-old tot was given to the care of the San Francisco County Welfare Department on Monday.

The woman said the child's father brought the baby to her house in January. At the time she said the boy was in poor health, apparently from malnutrition and underdeveloped for his age. She has taken care of it since that time and claims she has been paid little of the costs.

She said the parents refused to pay for medical care, avoided contacting her and have refused payment of any kind. Furthermore, they refuse to take the child back, she told Officer Tom Culley.

Second Story Men Take Auto Tools Valued At \$1649

"Second story men," in the true meaning of the phrase, took \$1649 worth of auto tools and machine parts from the Foreign Car Center, 6601 Mission street on April 24.

Ken Woodward, 726 Del Monte avenue, South San Francisco, a mechanic at the center, told Officer Art Linhares that the suspects gained entrance through a second-story window on the Hillcrest drive side. Nothing was disturbed on the second floor and \$2.50 in change was left in the cash register.

Woodward did submit a two-page list of auto parts and tools that were taken, however.

Lasswell's Pick-up Truck Recovered

Police recovered a panel truck which was stolen from the parking lot at 6154 Mission street last Friday afternoon.

The truck was reported as missing by Bud Lyceet of Lasswell's Mortuary. Daniel Sampino, 12, 67 Wilson street, told Officer John Van Otten that he saw a man with black hair and mustache, wearing a tan French beret, driving from the scene.

Officer Charles Munday said the truck was found at Guttenberg near Hanover street in San Francisco on Sunday. It was apparently driven a short distance as the gas gauge was still marked full. A spare tire, two flash lights and road flares were reported as missing by Lyceet.

'Bear Tracks' Mack Jailed—Vagrancy

Officer Tom Culley picked up Henry Mack Jr., 42, alias "Bear Tracks," Saturday when the policeman found him loitering in a doorway at 6380 Mission street.

Mack, charged with vagrancy and no visible means of support, was reportedly in need of treatment for an alcoholic condition and possibly malnutrition. Bail was set at \$52.50.

CITIZEN CHECKS OUT DALY CITY CANDIDATES' CAMPAIGN DONORS

Dear Editor:

In your last issue you listed the campaign expenditures of candidates in the recent Daly City elections. I think it is necessary to go one step further—to list the major contributors to these campaign funds—in order to give the public important information about the men they have elected.

The major issue confronting Daly City now is expansion through major tract development. Westlake can become a typical tract on its way to a slum, or it can continue as a planned residential community. This depends in a large part on how carefully our city government officials control the planning of the three major developers—Doelger, McKee, and Callan—and the major real estate dealers.

It is vital that our elected officials be able to plan the course of development objectively and with no obligations, other than to the voters. We want to make sure there is

enough land left to make room for parks, churches, and schools.

With these considerations in mind I present a partial list of contributors to the campaign funds of our recently elected city officials.

Francis Pacelli—\$2020 total fund: Doelger Construction—\$750; Wm. Lagomarsino Realty—\$500; Callan Construction—\$389; Vannucci Cement—\$250.

Joseph Verducci—\$2300 total fund: Doelger Construction—\$250; McKee Construction—\$250; Vannucci Cement—\$250; Colvin Realty Co.—\$100; Geo. Lagomarsino Realty—\$50.

Joseph Lewkowitz—\$973.20 total fund: McKee Construction—\$303.91; Doelger Construction—\$298.79; Wm. Lagomarsino Realty—\$100; McKee Inc. (Steel)—\$100.

A complete list is available at the County Clerk's office, Redwood City.

Jefferson High School District Superintendent Edward Morgan said a \$120,000 damage suit was filed last week and is in the process of being served to Mr. and Mrs. Tom Callan.

The suit is "in an amount sufficient to compensate this district for all damages and incidental expenses and costs resulting from the slide of a portion of Westmoor High School's eastern bank."

The \$120,000, "more or less," figure was arrived at following a report from soil testing engineers Lee and Praszker. Estimated cost as set forth by Lee and Praszker for restoring the damaged bank is approximately \$119,036.

Two hundred and fifty delegates attended MAPA's organizational convention last month in Fresno. Membership goal immediately is 10,000 out of the estimated state Mexican-American population of 800,000.

Purposes of MAPA, Castelan explained, is to further the cultural and civic betterment of Mexican-Americans, participate in political endorsements, and nominate Mexican-Americans and candidates supported by them for local, state and national offices.

State president of the organization is Edward Roybal of Los Angeles. Vice president is San Jose's Hector Moreno, and Juan Acevedo from Montebello is state secretary.

Bank-America Staffers Fete A. P. Giannini

Local Bank of America staff members this Friday will join more than 25,000 co-workers in offices throughout California and the world in honoring the memory of the bank's founder, A. P. Giannini, on the 90th anniversary of his birth.

In brief observances, Louis Pisan, Edward King and John Ferrari, Daly City, Westlake and Colma branch managers will introduce the bank's president, S. Clark Beise, speaking to the worldwide staff by recording.

Beise, in his commemorative message, emphasized the unchanging human values which Giannini stressed in the banking practices he inaugurated. These values remain the basis for the organization's philosophy despite changes brought about by electronic data processing and other technological advances, Beise concluded.

Born in San Jose in 1870, Giannini founded Bank of America in San Francisco in 1904. He died in 1949.

PARKED OFFICER GETS SPEEDING TICKET FINE

Officer Los Bastedo received two citations last Thursday while his police car was parked, one for a parking violation and the other for "speeding."

Bastedo turned over the two forms marked "Toal" to the inspectors bureau for further study.

Bastedo said he didn't have a chance to argue his case with the four-year-old boy who tagged him as the toddler peddled his tricycle away. A large "POLICE" sign was on the back of the trike.

The Officer said he would go as high as Chief Roland Petrocchi to have the tickets marked invalidated as they weren't made out properly.

The board approved the motion, "subject to the approval of the administration and empowered the administration to work with the two agencies in this matter." The totals were approved but are not to exceed the amounts stipulated.

'SOLE SUPPORT'

Publicity Man Cites Chamber's Role In Thornton Beach Project

Dear Mr. Bradshaw:

In an article published in a March issue, regarding Thornton Beach, no mention was made of the time and effort expended by the Chamber of Commerce in connection with this project.

At this time I would like to inform you of the activity of the Chamber on this matter and the fact that in all probability, we would have lost the opportunity to have Thornton Beach improved had it not been for the sole support of the Chamber of Commerce.

Originally, the matter of Thornton Beach was brought to the attention of the Chamber in late 1958 by Frank Pacelli. I was interested, along with most members of the Chamber, in Daly City having this property improved so that it could be used by the people of our area. As the committee chairman, I contacted the City Manager and asked his support on this project. He was also of the opinion that it was a desirable and needed asset to Daly City.

On February 2, 1959, he requested a meeting with the Division of Parks and Beaches. Our letter was answered and a meeting was arranged in Sacramento. Phillip Brown, the assistant to the City Manager, and myself went to Sacramento to meet with the Dept. of Parks and Beaches to see what could be done about obtaining the necessary money to make Thornton Beach usable. We were advised that the deadline on action in this matter was June 30. At that time the money that was allotted, about \$60,000, would revert back to the General Fund. We were also told that if the Council would write a letter requesting this money be reapportioned, it probably would be done. At the next meeting of the Council, this matter was discussed with the Council, and they were asked to send the letter immediately. The Council let the matter drop without writing the letter. Without the support of the council, there did not seem to be any hope of salvaging the allotted money; so for lack of any other approach on the matter, the Chamber took no further action until the Westlake Improvement Association came in the picture.

It would be well to note that there was no other organization involved in trying to improve Thornton Beach except the Chamber. In the later part of 1959, there was interest shown in the project by the San Francisco Chamber of Commerce and the Westlake Improvement Association. It was then revived by by-passing the Council and going directly to Sena-

tor Dolwig and Assemblyman Lou Francis by the Westlake Improvement Association. There were two meetings, I believe, held with the San Francisco Chamber and the Department of Parks and Beaches. One attended by Mr. Markovich of the Chamber and a representative of the Westlake Improvement Association, and one attended (the first), by Mr. Markovich only. There then followed two meetings with Senator Dolwig and the San Mateo County Supervisors, attended by the two groups from Daly City. All parties involved were very enthusiastic about the project, with the exception of the Department of Parks and Beaches. Upon close questioning by Senator Dolwig, it was discovered that many facts had been withheld from us and there was in fact \$200,000 allocated for development of Thornton Beach. It was determined by Senator Dolwig that in the next session of the Legislature, the money could be made available. This has now taken place.

Had it not been for the original action of the Chamber, it is doubtful that any other organization would be even aware of the possibility of developing Thornton Beach. Myself and the other members of the Chamber would greatly appreciate our work being known. Many people ask us what activities the Chamber has sponsored, and this being one involving considerable effort on the part of the Chamber should be known to the people of this area.

It would be appreciated if you could simply relate the facts regarding the Thornton Beach matter as they happened.

Very truly yours,
Fred L. Martin

Guido Rozzi Leads North End Fund Drive For 'City Of Hope'

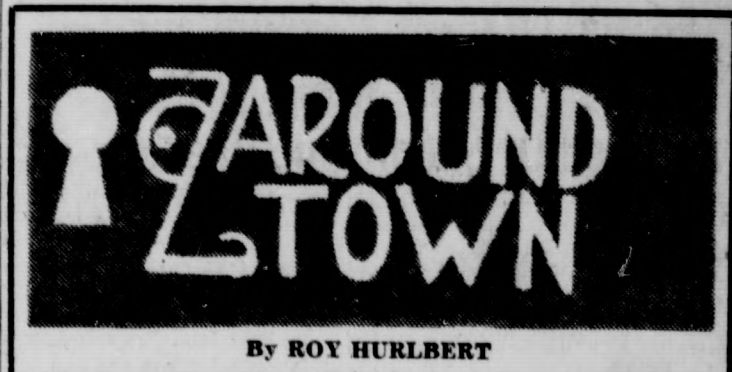

Formation of a committee of volunteers to spearhead the annual fund drive of the City of Hope, which begins June 2, was revealed here today by South San Francisco Councilman Guido J. Rozzi, who will head the North San Mateo County campaign.

Pledging an all-out effort to help raise the funds necessary for the National Medical Center's humanitarian program, Rozzi said that recruitment of workers is now underway and will continue without let up until campaign ranks are filled.

"Although we are gratified by the fine response to our initial plea for volunteers, we must enlist many additional workers if success is to be the result," he asserted.

"Continuation of the National Medical Center's program of free patient care, research and postgraduate medical education depends on many dedicated individuals, each doing as much as he can."

Since the doors of the City of Hope are open—without charge—to the afflicted from all sections of the country, regardless of race, creed or national origin, each city has a share in the Medical Center's fight

By ROY HURLBERT

PETITIONERS for a referendum on the Callan Park annexation claim one of their reasons for challenging the City Council's 4-1 vote for the tract is Daly City's present financial crisis which resulted from budget miscalculations last year.

They reason that this is an inopportune time to consider major annexations because of the city's tight-economy schedule, resulting from the general fund deficit situation.

On the other side of the fence are those among whom are many city employees—who feel that annexations of this scope will bring Daly City considerable financial returns in the long run. These individuals assert that annexations everywhere involve heavy initial investment by a city—but are ventures that will be repaid via a broader tax base, eventually lower taxes, more municipal prestige and regional power.

CITY MANAGER Edward Frank and the City Council realize that last year's budget shortcomings and growing population needs necessitate a jump in the next fiscal tax rate—even without cost estimates for servicing the Callan Park tract.

The council this month in budget talks will arrive at some conclusions on the expected tax rate. At this time the approximate effect of Callan Park on the new tax rate will be determinable. These facts are "musts" if citizens are to weigh the annexation's total effect should the council agree to a referendum on the annexation.

COUNTY ENGINEER Don Wilson met with San Mateo County's 16 mayors last week and explained the proposed county-wide road maintenance district which would require a 20-cent tax to finance.

The only fly in the ointment is that the vote to establish the district has to be unanimous by the cities.

The chances of this are about 10,000 to 1 because while some cities stand to gain a much bigger share of tax money for roadwork, others won't benefit much, and also, the county board of supervisors will make all the decisions (especially the annual tax rate for the special district)—leaving the cities out in the cold.

Cities are jealous of their sovereign rights and fear more county control.

City Manager Ed Frank of Daly City, incidentally, served on Supervisor Alvin Hatch's city-county gas tax committee which unanimously recommended the formation of the district to equalize gas tax revenue distribution.

Only one thing is certain. Under the present gas tax splits, the north end of the county hasn't been receiving an adequate share. The city representatives also generally agree that people in the unincorporated areas have been getting off easy on gas tax returns at the expense of the larger cities where critical road projects are long overdue.

Wilson also advocates a \$20 million bond issue to finance the construction of new roads and improvements of existing ones.

PACIFICA is experiencing perhaps the fiercest council turmoil in the entire county.

The drama involves the recent 3-2 appointment of Harold Feyge to succeed Jean Fassler as mayor. Former Jeff High School District trustee Don Miller and hundreds of citizens there claim Fassler should have remained mayor for another term.

As evidence of her value as council chairman, Miller and his supporters submit Fassler's re-election success last month. She was accorded high vote and twice as many ballots as also re-elected Councilman George Mason.

The way we hear it, the majority on the Pacifica council are much in the "minority" public opinion-wise.

In South City, Andy Rocca was voted mayor a second straight year, while Daly City councilmen rotate the assignment every 12 months as a matter of policy.

Even in Daly City, the mayor's appointment can be changed at any time by majority council vote. This means that no one is guaranteed the chairmanship merely on the basis of "his turn" in the rotation system.

THE HIGH SCHOOL board at Monday's meeting in Westlake, 375 South Mayfair, second floor, will review Stanford University's latest survey on school site needs in this area.

The report estimates high school population here in 1990 at 12,500 to 13,500—meaning the district will have to have a minimum of six four-year high schools.

By September next year when Oceana (Sharp Park) and Terra Nova (Linda Mar) open their doors to Pacifica youngsters, total student population is guessed at 1100 for Jefferson, 1620 at Westmoor, and 900 at both Oceana and Terra Nova.

Stanford suggests master enrollment by 1990 to read: Jefferson, 1100 students; Westmoor, 2700; Oceana, 2400; Terra Nova, 1700; a fifth high school in the Skyline boulevard area, 2400, and a sixth high school in the Crocker hills area, east of Daly City, 3000 students.

Suitable sites being scarce, according to the survey, the Stanford researchers pose the possibility of the "school within a school" pattern—that is, two or more separate schools on the same site. Specialized facilities such as shops, physical education fields, and auditoriums could be used jointly.

The ultimate result of the "school within a school" policy would be larger high school plants.

And perhaps some double-decking?

SOUTH SAN FRANCISCO is the only north end city disputing the Junipero Serra freeway route which was recommended to the State Highway Commission last month.

South SF has annexation hopes for the Christen land adjacent to Winston Manor west of Junipero Serra and would like very much to foist the freeway on Daly City land near Skyline.

Daly City officials are satisfied with the state-endorsed proposal because the Christen property, like Callan Park, no doubt will also be annexed to Daly City.

South SF requires 50-foot lot frontages, while Daly City's 33-foot minimum is more attractive to builders who are in business to save as well as make money. You can draw your own conclusions.

RICHARD LANDUCCI, Jeff High's photography instructor, is leaving teaching this June to study medicine.

"Doc" Landucci will nail up his shingle in this area about four years from now.

MRS. LORRAINE WARD of Westlake was buried this week in Everett, Washington.

Her last community effort was serving as chairman of the Westlake drive for the American Cancer Society.

She died Saturday night—of cancer.

Those who wish to remember her may do so with contributions to the cancer campaign. Call Judith Jacobs, PL 6-0269.

PLANNING COMMISSIONER John Schaeffer, who also underwent surgery to whip cancer, has been elected national president of the St. Mary's College (California) Alumni Association. The Westlaker is an attorney with offices in San Francisco.

MR. AND MRS. Jack White, 689 Templeton avenue, recently vacationed in Mexico and were amazed by the leisurely attitude of their hosts.

There were no requests for identification of any kind when they cashed checks at various spots. Apparently Mexican businessmen are trusting souls when they're dealing with Americans.

Returning to Daly City, the Whites got back to normalcy at a local market. More checks to be cashed, and this time the greenbacks were withheld until Jack verified his identity.

Great to be home?

DC Police Chief Says Police Recruits May Attend School

Daly City Police Chief Rolando Petrocchi, chairman of San Mateo County's Law Enforcement Association Education Committee, said today that in the future all recruits coming into county police departments will have to attend classes at San Mateo College.

Petrocchi said many of the aspects of police officers training at the school are still tentative. For instance, the committee would like recruits to attend school four hours and put in the other four hours on their respective jobs. They may be paid for all eight hours if City Councils throughout the county agree.

However, Petrocchi noted that the committee seeks uniform rules so that each city's departments wouldn't be gaining more or less than others. The attendance would be mandatory and could lead to an Associate of Arts degree in law enforcement.

Classes may be four hours a day, five days a week, for six weeks. Sessions suggested were for twice a year, to start in October and March.

Petrocchi said he and other committee members spoke with State Education authorities and feel that San Mateo would be the most feasible site. Reasoning for this is because of the central location and type of course. The first planning stage of the school had its location in South San Francisco.

THE RECORD — Thursday, May 5, 1960

Speakeasy Replaces D.C. Casino

According to both fact and fiction the nineteen-twenties were "roaring." There were short skirts, cupid bow mouths and bobbed heads. There was the Charleston, the Black Bottom, and bathtub gin (served in coffee cups). It was an era of absolute and wanton abandon — a period the likes of which you thought you would never see again.

The Steak Pit's "Westside Warehouse" is a replica of a Roaring 20's "Speakeasy" which won't let you forget that prohibition has really been repealed. You may not only see and hear but become a part of a recreation of the flapper age. Entrance is at the rear of the Steak Pit parking lot where years ago there was an old illegal gambling casino.

The conversion was brought about under the direction of Frank Martinelli Jr., well-known restaurateur, who now owns and operates the Steak Pit.

The "Westside Warehouse Speakeasy" will capture for many the sights and sounds, the fun and carefree frolic of those long-lost years.

Westmoor School To Have 800 More Students In Fall

Dr. John Ivan, Director of Curriculum for the Jefferson High School District, gave trustees a written report last week stating that next September's Westmoor's morning session will have 1400 students and Oceana's afternoon classes will accommodate 980 more.

Superintendent Edward Morgan said that this projection means there will be an increased enrollment of 800 students at the one building.

The break-down for Oceana is: Freshmen, 440; Sophomores, 320; and Juniors, 220. Dr. Ivan noted that most teachers will be needed for the English and social studies departments. A total of 962 of the 980 students will have English classes, while 933 will attend social studies classes.

'Summer Safari' Fashion Show At Seaciff

Plans have been completed for "Summer Safari," the theme of a luncheon and fashion show planned by the Women's Society of World Service at Daly City's Seaciff Community Church, this Saturday, May 7, in the social hall of the church.

Fashions from Franklin's and Jay Vee stores will be modeled by the following Seaciff Church women: Mesdames William Johnson, Bill Oswald, Richard Picchi, Stan Clark, A. J. Infusino and Frank Toft. Also modeling will be the following girls: Connie Adams, Nancy Fanthorpe, Judy Johnson, Dale Kile, Pat Kile, Patty Oswald, Connie Simcox and Susan Simcox.

Hats will be furnished by Krane's of Stonestown and veils by Margaret Van Vick. Sarah Coventry jewelry will be featured in the show.

The Summer Safari theme was chosen to tie in with the Women's Society's study of Africa this past year. An African theme in the decorations and menu is planned with special music to accompany this atmosphere.

For tickets to this mother-daughter affair contact Mrs. Gene Biedermann, PL 6-2532, or Mrs. Infusino, PL 6-3370.

EDICT ORDERS 'BEAR TRACKS' TO REFORM

Henry Mack Jr., 42, alias "Bear Tracks," was asked in no uncertain terms to do just that, make bear tracks, by Daly City police Monday.

Mack, who has been arrested 122 times in 22 years all for being drunk on public streets here, received a lawful "heaveho."

R. Harris of the Alcoholic Beverage Control Board, said that his members would assist in enforcing the Business and Professional code which considers a misdemeanor for any licensee or employee to sell or give away alcoholic beverages to any habitual drunkard, whether sober or not.

All neighborhood stores have been notified of the law and not to sell alcoholic beverages to "Bear Tracks." Sergeant Jack Walsh said there was only one other person who has come close to Mack's record and he no longer frequents Daly City establishments.

We know she'll appreciate a day or night out at the favorite spots listed in these columns.

Sai Wu Garden in Westlake, an establishment that really earns its slogan of "The Bay Area's Most Unique, Authentic Chinese Restaurant," will be open all day Mother's Day for lunches and dinners. If you find it just impossible to get out, have some of Sai Wu's famous food delivered to your home.

Ed's Chuck Wagon on West Portal, one of five locations, will feature their usual Mother's Day fare (and we might add, excellence is the usual thing at Ed's). Dining hours this Sunday will be from 2 to 10 p.m.

Westlake Bowl is putting all its emphasis on Mother for this Sunday, with a special Mother's Day Breakfast for parties of 10 or more from 8 a.m. until 1 p.m., and dinner from 4 to 11 p.m.

Edee Grant's Charcoal Broiler & Cocktail Lounge in Lakeshore Plaza will also double up for Mom with a breakfast and dinner devoted to her pleasure. Breakfast starts at 9 a.m., dinner from 3 until 10 p.m. Family and party groups should make reservations as early as possible. Grant's also features a dance floor and private bar catering to any size parties.

And to figuratively put the "ice cream" on Mother's cake for the day, why not follow dinner with a night at the Movies? Seavue theater in Pacifica is only minutes away from any of our readers, and features first-run movies.

In the wage of construction here in growing Daly City, a novel idea has been conceived, in the form of a "Roaring 20's Speakeasy," opening May 6th at the rear of The Steak Pit. The pass word "Marty sent me" might unlock the door.

A new head Chef, Francesco, has taken over the cuisine end of the Copperwood Lodge. Frank is one of the "Old Timers" and is a master at Italian Style cooking. Dinners range from \$2 to \$3.50 and are served every evening except Monday. The new Chef also advised us that the Lodge will be opened during the day for special luncheon groups. Call for information.

Big things are happening at Val's Redwood Room. Service is the key word as various salads are now served with a flourish in front of the patrons and a much more varied menu, very enjoyable.

VINCENT STEPS UP AS ACTING REC DIRECTOR

Salinas-born Charles E. Vincent, 33, has been appointed acting director of Daly City's Department of Parks and Recreation. City Manager Edward Frank confirmed today.

Vincent, who has served here in the capacity of recreation supervisor the past 26 months, fills the job vacated by department Director Dee Van Nest. The latter resigned to take a higher-paying post at Bellflower, California.

A graduate of San Francisco State College, Vincent was employed by Columbia Park Boys Club in San Francisco prior to taking the Daly City recreation assignment. He served in the Navy during World War II and again during the Korea conflict aboard a carrier as an enlisted man.

Vincent and his wife, Betty, have five children—ages 10, 8, 6, 2, and 10 months. They live at 59 Riesel street.

Salary for the acting department director was increased in line with his additional responsibilities, the city manager announced. Richard Watso, formerly a part-time department employee, is now handling Vincent's previous duties as full-time recreation supervisor.

The moose, according to the National Automobile Club, is the largest antlered mammal that ever lived on earth.

Vista Mar Pupils Tour SF Harbor

As an added curriculum experience in Vista Mar School's third grade social studies unit "San Mateo County and the Peninsula Area," Miss Mary O'Rourke's class took a harbor tour. Leaving from Fisherman's Wharf, the boat took them around the bay, both on the East Bay and San Francisco Harbor, as well as around Alcatraz island. Discussion regarding the activity around the docks — shipping, loading, etc. was engaged in as the tour was taken.

LAW IN ACTION

FREAK WILLS

You have read mystery novels where the plot turns on a "freak" will.

Susie can't marry, because if she does she loses her estate under her late uncle's will. Fact is the courts wouldn't waste much time on such a will. Most likely it would hand the property over to Susie anyway; the law regards provisions in restraint of marriage as against public policy and courts as a rule will not carry them out.

Since the courts interpreting wills cannot read the testator's mind the rules are quite strict: Let's say you are the apple of your Uncle Louis' eye, and you don't want those other relatives to cut in. So you help him draw his will leaving everything to you. Then you and the gardener sign the will as witnesses.

Do you get his whole estate? Not in California, or elsewhere. Since you are not a disinterested witness, a court at most would let you get only what you would get if Uncle Louis had left no will at all.

Can you control others through your will? Though you cannot leave in property to someone only on contests.

Such wills seldom turn up in detective stories or in court contests.

condition she never marry. Yet you might leave it to your Emily until she marries.

In Emily's case you would be reasonably providing for your daughter until she marries, afterwards her husband would provide for her.

Other problems: You may save taxes sometimes by giving some of your property away while you live.

It is true, alas, that members of a family can get pretty riled over a will. If they think you have treated them unfairly they may raise a fuss: Perhaps contest the will. So with a little foresight you can get your will drafted to settle disputes before they arise and still carry out your deepest wishes.

Each of these wills seldom turn up in detective stories or in court contests.
